MSRP \$95.80

#### Product Images

#### Description

Remo's RL-0313-71-10SK Rhythm Lid Controlled Sound Snare Kit instantly rocks your bucket providing a high-end snare drum-like sound. Remo's Rhythm Lid Snare Kit is constructed with an Acousticon drum shell, Controlled Sound Clear Drumhead and includes the Snare Clip.

Designed to fit most 5, 6, and 7-gallon U.S. made pails the Rhythm Lid allows you to turn your bucket into a drum by simply applying the drumhead to the pail with a slight downward pressure creating a "Press Fit" seal that produces the quality tonal frequency.

Most big box hardware stores carry buckets that are compatible with the Rhythm Lid Drumhead, making it affordable and fun for educational, recreational, and street drumming.
