## Description

---

The Ludwig P0959 Teflon Tape will do multiple timpani bearing edges and allow your heads to more smoothly and easily travel over the bowl of your Timpani to help aid in tuning and longevity of the heads, otherwise the friction from pedaling will create a "stickiness" feel and audible pops. Teflon tape does a wonderful job of eliminating these problems. Simply apply it directly to the bearing edge of the bowl.

This roll comes with 36 yards of film, enough for multiple drums.
