Description

The Evans UV EQ4 BD22GB4UV 22" Bass Drum Head features the same patented UV-cured coating and durable single-ply 10mil film from the UV1 series with the addition of a fixed internal overtone control ring to

reduce sustain and focus the tonal response of the drum.

- Patented UV-cured coating provides unmatched durability and consistency
- Made from a single ply of unique 10mil film
- Fixed internal overtone control ring focuses the tone of the drum
- Extremely versatile for a wide variety of musical applications
- Level 360 Technology collar design ensures proper contact between drum head and drum shell
- All Evans drum heads are designed, engineered and manufactured in the USA
