

Pageantry Innovations AR-40 Folding Field Rack

\$1,695.00

Product Images

Description

The Pageantry Innovations AR-40 folding field rack is the ultimate marching percussion multi-percussion cart. Sometimes you get carried away and feel the need to mount every possible drum, cymbal, wood block, tray table and accessory. The AR-40 Folding Field Rack allows your setup to be as creative as your imagination! When fully opened, the AR-40 has an overall depth of 48" allowing the performer to be completely immersed in their setup. When it's time to load the cart on the truck or store it for the season, the AR-40 collapses down to a slim 20" deep thanks to the hinged rack wings. 8" flat-free, locking swivel casters allow for easy mobility from parking lots to fields and arenas.

Works Well for:

- Marching Band
- Indoor Drumline
- Indoor Winds Ensembles
