## Description

The Innovative Percussion Jauvon Gilliam series Timpani mallets feature a totally new look on a classic implement. All six models are constructed with a stained black bamboo shaft and are wrapped with a black German "Midnight" felt. The series is built to be agile like a European mallet but have the presence of an American mallet. Each stick has a clean attack to help produce a clear, immediate pitch and a warm tone allowing you to easily support an ensemble's sound and blend.

Features:

JMG-1: Large roller mallet featuring a wood core with black German felt cover

JMG-2: Bold, wooden core with black German felt cover

JMG-3: Medium general mallet, wooden core with black German felt cover

JMG-4: Medium hard mallet. Hard felt core with black German felt cover

JMG-5: Hard mallet, wooden core with black German felt cover

JMG-6: Articulate mallet, Wooden core with premium felt cover
