Description

The Innovative Percussion A7X *Brooks Wackerman* signature series model was designed specifically for the needs of today's modern rock/metal drummer. A model unique to Innovative Percussion, The A7X carries a length of 16.5", and the diameter in the hand is .626" then expands slightly out to .630" at the shoulder. This helps to create a powerful sound while maintaining agile speed for faster passages. The stick has a mild taper at the shoulder to the bead to keep the stick evenly balanced. The barrel shaped bead creates a bold yet clear cymbal sounds.

Features:

- White Hickory
- Length: 16.5"; Diameter: .626" - .630"
- Barrel Bead
