

Grover PTB Percussion Tour Box

\$2,160.00

Product Images

Description

The new Grover Pro Percussion Tour Box will help you organize, store, and transport a vast array of percussion items including:

- Snare drums (up to 3)
- Snare Drum & Cymbal Stands
- Cymbals (up to 30)
- Bass Drum & Gong mallets
- Temple Blocks & Woodblocks
- plus much, much more...

Perfect for pros, orchestras, schools, bands, percussion groups, and all ensembles needing a durable, versatile, portable percussion case.

An extra deep 7" drawer holds a multitude of hand percussion items including bongos, shakers, cowbells, and many other Latin percussion instruments. A bottom drawer with three compartments slides out to store tambourines, triangles, mallets, and other small beaters. This drawer features an internal lock to prevent small items from "walking away".

And here's the best news: The days of breaking down stands are over! Inside the lid are four heavy-duty canvas pockets that securely hold snare drum and cymbal stands. You can now put stands away quickly inside the lid!

The Tour Box rests on large 4-inch industrial casters that facilitate easy transport. All the wheels have locking mechanisms to ensure stability when stationary. All the drawers and cubbies are lined with durable padding. Instruments will be safely protected even when the Tour Box is transported over rough terrain. The Grover Pro Percussion Tour Box is constructed to provide years of trouble-free service in band rooms, concert halls, percussion studios, stadiums, and even on the field!

Dimensions: 40" H, 28" W, 28" D

Weight: 138 lbs
