

Snareweight M80WHT Large White Drum Head Dampener

\$29.90

Product Images

Description

The Snareweight M80 is engineered to control the resonance without sacrificing the brightness of the drum. One M80 has 4 different dampening settings: very light, light, medium damping, to off. Try two M80's on the same drum for more options and control. Dampen in a snap or disengage even faster with the on/off feature. Works with triple flange hoops, die cast, angel hoops, true hoops etc.

- Snareweight Expressive drum dampening. FLEXIBLE BY DESIGN to match a drummer's natural dynamics.

- Control the amount of dampening in a snap with 4 different settings... or, flip it up and off the head for none at all.
 - Patented clip for permanent grip to ALL SIZE metal hoops.
 - Genuine USA Leather. (about 10" across)
- MAGNETIC flexibility. Nothing "sticks" to your head- keep it open and real. Will never warp, kink or unstick.
