Description

The ProMark SPYR SM1 features a large, very soft synthetic rubber core wrapped in yarn for a full, lush sound on the bottom register of the marimba. These mallets also feature a slightly thicker shaft than traditional marimba mallets for improved balance and feel.

- Optimal marimba range: C2 - C4
- 1 1/2" round core wrapped in yarn
- Length: 16 3/4"
- All Promark mallets are designed, engineered, and manufactured in the USA
