Description

The ProMark SPYR SM4 is a go-to general use mallet for indoor and outdoor marching percussion. The combination of a slightly larger mallet head with an internal brass weight provide a full, fundamental tone

that cuts through the ensemble. These mallets are also constructed with a slightly thicker shaft than traditional marimba mallets for improved balance and durability.

- Optimal marimba range: C3 - C6
- 1 3/8" round core with a 2g internal weight wrapped in yarn
- Length: 16 3/4"
- All Promark mallets are designed, engineered, and manufactured in the USA
