

Evans UV2 Coated B10UV2 10" Drum Head

Your Price \$26.99

MSRP \$51.55

Product Images

Description

The Evans UV2 drumheads feature Evans' patented UV-cured coating technology over two plies of reinforced 7mil film. Extensively tested with some of the heaviest of hitters, these heads set a new standard for durability in one of the most tried and true two ply forms. They make for a versatile snare head or a warm, focused tom head with lots of attack.

Available in 8"-18" sizes
