## Description

---

The Pearl CXS2 Airframe Snare Drum Carrier features a resigned upper section that not only provides more comfort, but also a better fit for a wider array of body types compared to the original CX1 model. The CXS2 Carriers feature a solid rod, form-fitting upper shoulder frame attached to a thin aluminum belly plate with extreme range of motion. The ACS (Agility Control System) Belt unites the player to their instrument for optimal stability in today's modern use of body movement. Adjustment of the carrier is done easily with a standard drum key. The shoulder and belly pads are removable for cleaning and are built with a "Stealth" design; the Carriers practically disappear under the uniform.

### Pearl CXS2 Snare Drum Carrier Features:

- Model: CXS2
- Solid, Form-fitting Shoulder Frame: Comfortable form with 1-piece construction for optimal durability
- Removable Padding: Velcro Shoulder and Belly Pads are easily removed for cleaning
- Agility Control System Belt: The ACS Belt unites instrument with player to assist with modern drill and body movement
- Drum Key Adjustable: All of the clamps on the CX Air Frame Carrier are fully adjustable with a standard drum key
- Stealth Design: Designed to disappear under the uniform
- Mounting Included: CXS1 Snare Carrier comes with CXSA2 attachment to affix the carrier to your free-floating snare drum
