Description

Meinl's bendir frame drum is a fusion of tradition and innovation designed to elevate your rhythmic experience. Crafted from Siam Oak, these drums feature an extra deep shell for full sound development and a dampening layer around the rim to reduce overtones.

The fully tuneable True Feel heads utilize four thin strings stretched across the inside of the head to create the iconic bendir buzz. Rich bass tones and crisp taks provide versatility to match your playing style.

Finished in an elegant Antique Brown with a matte texture, these frame drums exude sophistication and style. Each Bendir includes a hex key for convenient tuning adjustments.

- Features:**
- Extra Deep Wood Shell
 - True Feel Synthetic Head
 - Tuneable
 - Internal Strings
 - 12" diameter x 4" Depth
