Description

The Black Swamp SoundArt SA714TST 14x7" Titanium Elite Snare Drum is inherently crisp and articulate, but retains a pleasing warmth that will surprise and delight your ears. These drums "play deep" and have an exceptional tuning range. All the hardware holes are cut by laser, and we then craft the bearing edges and satin finish by hand. Truly a fabulous instrument to add to your drum collection.

The SoundArt Snare System works as a cohesive unit and blends the 3 systems together for a consistent tonal and dynamic response at all playing levels. This system is precisely machined in the USA from aircraft grade aluminum.

- Titanium Shell
- Brushed Satin Finish
- 2.3mm Triple Flange Steel Hoops, ArchLugs, Stainless Steel Tension Rods
- SoundArt Snare System - 6 Stainless Wires - 4 Gold/4 Blue Wire- 5 Wire Wound
- Snares -Each snare unit responds at different volume levels for maximum response through every dynamic.
