Description

The Marimba One 9305 3100 Series 5 Octave Marimba features the features the acoustic combination of Marimba One's Basso Bravo Resonators and Enhanced Keyboard voicing. This combination is the most popular marimba for Universities, Orchestras, and marimba players alike. The sound easily carries through ensembles and orchestras. Combining the renowned warmth of our Basso Bravo resonator voicing with our super articulate and resonant Enhanced Keyboard voicing, results in the most sought after professional marimba.

The Marimba One 3100 is by far the most rigid and durable marimba on the market. This frame features aluminum rails with tested durability and reinforced hardware. The end frames have more wood than the Izzy frame and feature laser engraved tape measures into the end frames so you always know the keyboard height. To raise and lower the marimba, simply turn a handle at each end frame. 100% designed and built in our California factory.
