Description

The Black Swamp SoundArt Maple SA514MDT-CB 14x5" Ply Maple Snare Drum features a 7-Ply Maple Shell in a Concert Black Stain. Maple shells offer an excellent balance of characteristics that have made it a workhorse

in concert and orchestral music for over a century. Our bearing edges are shaped to bring out the natural body, warmth, and clarity that maple has to offer.

The SoundArt Snare System works as a cohesive unit and blends the 3 systems together for a consistent tonal and dynamic response at all playing levels. This system is precisely machined in the USA from aircraft grade aluminum.

7-Ply Maple Shell

Die-Cast Hoops, ArchLugs, Stainless Steel Tension Rods

SoundArt Snare System - 6 Stainless Wires - 4 Gold/4 Blue Wire- 5 Wire Wound

Snares -Each snare unit responds at different volume levels for maximum response through every dynamic.
