Description

The Encore Naoko Takada NT6B Medium Soft Birch Marimba Mallets were designed with the ability to cut through an ensemble, focusing on clear projection and enhanced articulation without sacrificing the balanced tone quality. The mallets contain latex cores with durable cotton yarn made in the US. These mallets can be used for both ensemble and solo marimba playing.

The shafts of all models using birch are unfinished to increase grip and control.

"Encore Mallets respond to your most delicate touch and will no doubt maximize your musical expression!" - Naoko Takada, marimbist
