

Remo DX-0912-1V 12" Bahia Bass Head

Your Price \$34.95 MSRP \$63.50

Product Images

Description

The Bahia Bass drumhead is made with a 5 mil bottom layer of clear Mylar film and a top layer of a black naugahyde, simulated leather (vinyl) material. This combination produces a very low bass tone which dramatically eliminates most overtones. These qualities will also produce a softer bass sound with less attack when played with a drum stick. Available in various sizes and fits most major brands for bahia drums, pandeiros, tan tans, and surdo drums.;
