## Description

The Black Swamp CF6 Staccato Carbon Fiber Timpani Mallets (Red Felt) have a thin layer of red felt over a leather core, combined with a 1/2" diameter shaft, produces a highly articulate mallet without the intensity and projection of our wood core staccato mallet. Perfect for extreme articulation at softer dynamics or less aggressive musical styles.

The Carbon Fiber Series timpani mallets consist of seven models of varying felt thickness and core hardness, extending tonal and dynamic versatility. The mallets are weight and pitch matched precisely, with the carbon fiber shafts providing consistent feel and response with no vibration feedback. The exterior felt is meticulously hand sewn and fitted to each mallet precisely.

- CF1 Red - Hard (258951)
- CF2 Green - Medium Hard (258952)
- CF3 Purple - General (258953)
- CF4 Orange - Legato (258954)
- CF5 White - Cartwheel w/Leather Core (258955)
- CF6 Red Felt - Staccato w/Leather Core (258956)
- CF7 Black Felt - Super Staccato w/Wood Core (258957)
