

# JG Percussion DH7 David Herbert "Rite of Spring" Timpani Mallets

\$80.00

## Product Images

## Description

The JGPercussion DH7 David Herbert "Rite of Spring" Timpani Mallets feature carbon fiber (graphite) shafts with hard American felt over a large wood core. This is a rich and full sounding stick with a clean attack,

perfect for driving the orchestra such as the majority of passages in Rite of Spring and the second movement of Beethoven Symphony #9.

"The construction of this mallet and combination of weight and materials delivers plenty of rhythmic drive and power." - David Herbert

Each stick is 14.5 inches long (37cm) and has a slight taper from the handle to the head of the mallet.
