

SKB 1SKB-D0922 Lead/Tenor Steel Drum Case

\$224.99

Product Images

Description

Designed for steel drum players who are looking for the best protection for their “pans,” the SKB Steel Drum Cases are rotationally molded from Linear Low Density Polyethylene (LLDPE), offering high durability and strength. An extra ring of padding in the lid keeps the steel drum in place and helps prevent against the “pan” lifting up and impacting the lid during transport.

The SKB-D0922 Lead/Tenor Steel Drum Case is a roto-molded D-shaped case with molded in feet for upright

positioning and stability. The cases includes a patented Roto-X pattern for added strength, durability and reliable stacking. Sure grip handles with a 90° stop are designed for easy lifting and transporting. With padded interiors for added protection, SKB Steel Drum Cases have revolutionized affordable steel drum protection
