## Description

The Innovative Percussion Soloist IP240N Medium Natural Birch Marimba Mallets are one of the most popular marimba mallets on the market. These mallets are the same as the IP240 but have a natural birch shaft instead of a lacquered birch shaft. Featuring 100% wool yarn wrapping, these are perfect mallets for solo playing or with ensembles. A medium hardness of mallet produces a clear full sound across the entire range of the marimba.

### Get a Grip: Natural Birch Shafts

For players that are looking for a little more control, these feature a natural birch shafts the helps provide a more slip resistant grip while playing two or four mallets.

### All About the Core: Hard Rubber Cores

The core of the Soloist series marimba mallets are made of hard rubber. This type of mallet core helps to produce a warm fundamental and a full, rich tone.

### IP-240N Soloist Marimba Mallets Features

- **Mallet Type:** Marimba
- **Shaft Type:** Natural Birch
- **Hardness:** Medium

- **Head Material:** Wool
- **Length:** 17"

## IP Soloist Series: For the Marimba Virtuoso

The IP Soloist Series features six different hardness's of mallets that allow you to produce a wide range of sounds required by marimba players. These mallets are used by beginning percussionists and professionals. Innovative Percussion manufactures all their sticks and mallets with extreme care and attention to detail in the Nashville, TN facility.
