

# Remo Nuskyn M6-R715-N5 7.15" R-Series Bongo Head

Your Price \$42.95

MSRP \$77.80

## Product Images

## Description

Remo Nuskyn Series bongo drumheads provide a superb, authentic drum sound and fit more "regular" full size model bongo drums from most of the major manufacturers. Remo identifies "regular" full size model bongos as the large drum (hembra) 8 1/2" or 8 5/8" and 9" sizes and the small drum (macho) measuring 7" or 7 1/4".

Nuskyn sounds natural, warm, and full-bodied with enhanced low and mid-range frequencies, without any lingering high pitched overtones. Frequency analysis shows it closely resembles the performance of animal skin, while actually expanding the sound response spectrum dramatically. Join the many professional drummers and drum enthusiasts that are switching from the animal rawhide heads to the maintenance free Remo Nuskyn synthetic drumheads. Nuskyn sounds natural, warm, and full-bodied with enhanced low and mid-range frequencies, without any lingering high pitched overtones.
