Description

The Innovative Percussion Casey Cangelosi CGL1 Heavy Bass Marimba Mallets are heavy mallets that features black yarn and produces thick, articulate bass sound. Wapped in evironmentally friendly bamboo-blended cord, the Casey Cagelosi Series marimba mallets combine the rich, warm tonal characteristics of yarn with the articulate clarity of cord. These mallets are built on birch dowels with a natural finish and allow for a heavy bass sound without sounding muddy or washy. They are delitcate touch for lyrical legato passages that speak from the mallet immediately and a steay timbre throught the dynamic range.
