

Grover GWC-MF Castanet Mounting Frame

Your Price \$108.00

MSRP \$122.00

Product Images

The Grover GWC-MF Castanet Mounting Frame quickly and securely transforms your handle castanets into a versatile castanet machine! Designed to fit all popular brands of pro-level castanets, our frame can be placed on a table top or mounted onto any standard cymbal stand for greater flexibility in positioning.

Unlike flimsy sheet metal stands, our solid oak frame is extra durable and will provide many years of trouble-free service. The large clamping knob adjusts felt-lined jaws to easily accommodate handles of various diameters. Hard durometer rubber isolation feet ensure that the base remains vibration free.

Made with pride in the USA.

*Frame only. Castanets not included.
