Description

The Innovative Percussion Jim Casella IP1006B Hard Birch Vibraphone Mallets feature rattan handles and are constructed with rubber cores in a variety of shapes and weights to extend the dynamic range of the

instrument. Tightly woven multi-ply synthetic cord results in increased articulations and durability for maximum clarity and projection in both indoor and outdoor venues

This series of keyboard mallets are designed to the specifications of leading marching percussion specialist Jim Casella.

Birch Handles

Increased weight for added projection

Tightly woven multi-ply cord for increased articulation and durability
